

EASY BOOTH

Engineering
the Highest finish

A high-quality, low-cost booth that can be installed and operational in less than two days.

Manufactured and supplied in the fewest number of parts, the Dalby Easybooth provides operators with a quality low cost booth that can be installed and operational in less than two days.

- Suitable for use with Water Based Paints
- Fully certified and compliant with all current Health & safety and Environment Protection Act requirements

To allow for the varied workload that most workshops face, the Dalby Easybooth has options to extend both the height and length. This flexible approach allows for a cost effective solution to suit the needs of cars and Vans alike.

Self Build Option

Due to the innovative design the Dalby Easybooth can easily be installed by individuals with only limited, mechanical fitting experience and some basic everyday tools. This cost effect Self Build option allows you to save on any unwanted fitting costs.
